

American University Neighborhood Partnership Steering Committee Summary

June 18, 2019

Key Discussion Points:

- Foundational Agreements
- Working Group Updates
- Campus Planning Timeline

Summary:

The meeting began with the group discussing changes to the Terms of Reference and Ground Rules documents based on feedback from the first Steering Committee meeting. Updates from working group co-chairs indicated that the working groups have gone through their first or second meetings and are defining their scopes of work. All Steering Committee members will be invited to all future working group meetings. Longer discussion was focused on ways to involve more community members in the Partnership process.

By November 2019, the Steering Committee hopes to have compiled a list of the key issues relevant to their work and the work of the individual working groups. The discussion also looked at how the Neighborhood Partnership interfaces with the Community Liaison Committee and the appropriate form of information-sharing between the two entities. The importance of confidentiality, when requested, in working group meetings was established. AU closed out the meeting by detailing a new master lease for 200 students in Tenleytown.
